A course by
the World's Fastest
Human Calculator

For Grades UKG – 1

Meet Bhanu – the World's Fastest Human Calculator

Neelakantha Bhanu became the World's Fastest Human Calculator at the age of 17 by breaking 4 World Records, 50 Limca Records and records created by Shakuntala Devi.

Since then, Bhanu has been on a mission to help every child in the world overcome their fear of math.

Bhanzu, a brainchild of Bhanu, is a global math learning platform that emphasizes on speed and cognitive abilities, critical thinking, and practical applications of mathematics. It adopts a unique approach that prioritizes learning the 'WHY' before the 'HOW' & 'WHAT'.

Bhanzu – Your Child's Favourite Math Course

Neelakantha Bhanu
World's Fastest Human Calculator
Founder & CEO, Bhanzu

Featured in :

Applications of Math & STEM

Understanding real world applications of math through story narratives

Critical Thinking

Learn to solve problems systematically & independently

Why before the What & How

Questioning the "Why" to stimulate curiosity – a key ingredient to growth

Confidence through Speed

Become 4X faster in mental math, boosting confidence & cognitive abilities

The Bhanzu Way of Learning

Blitzkrieg Learning

Make connections & learn rapidly instead of incrementally learning over years

Growth Mindset

Develop a growth mindset & a sense of curiosity to explore more

What will you learn?

Module 01

Numbers And Comparison

- History of numbers
- Number line
- Place value
- Missing & comparing numbers
- Ascending & descending

Module 02

Kingdom Of Addition

- Counting on number line
- Introduction to addition
- Bhanu's method of addition

Module 03

Mastering Tables

- Counting in groups
- Multiplication as repeated addition
- Times table

Module 04

Multiplication Maestro

- Multiplication through expanded form
- Bhanu's method of multiplication

Module 05

Super Subtraction

- Concept of taking away
- Bhanu's method of subtraction
- Mental calculation

Module 06

Shapes And Units Of Measurement

- Shapes around us
- Open and closed shapes
- Units of measurement
- Perimeter and area

What will you learn?

Module 07

Fractions And Division

- Representation of fractions
- Types of fractions
- Introduction to division
- Bhanu's method of division

Module 08

Arithmetic Elites

- Hots questions on different concepts covered in the first 7 modules

Module 09

Math In Colors

- Types of numbers
- Properties of numbers

Module 10

Pro Speed Math

- Double step method of multiplication
- Optimised double step method of multiplication
- Faster method for speed division
- Faster and simpler method for speed addition

Module 11

Sets And Coordinate Geometry

- Introduction to sets
- Venn diagrams

Module 12

Finding The Unknown

- Introduction to variables
- Variables around us

What will you learn?

Module 13

Logical Thinking And Pattern Recognition

- Logical thinking in daily life
- Basics of logical thinking
- Sudoku
- Pattern recognition

Module 14

Math In Music

- Introduction to music
- Cyclic system of music

Module 15

Ai For Kids

- Introduction to ai
- Basics of how ai works
- Data visualisation
- Basic boolean operators
- Logic gates

Skills developed by learning Math

Cognitive Development

Quick Problem Solving

Logical Reasoning

Visual Interpretation

Our Learning Ecosystem

bhanzu

01 Student Dashboard

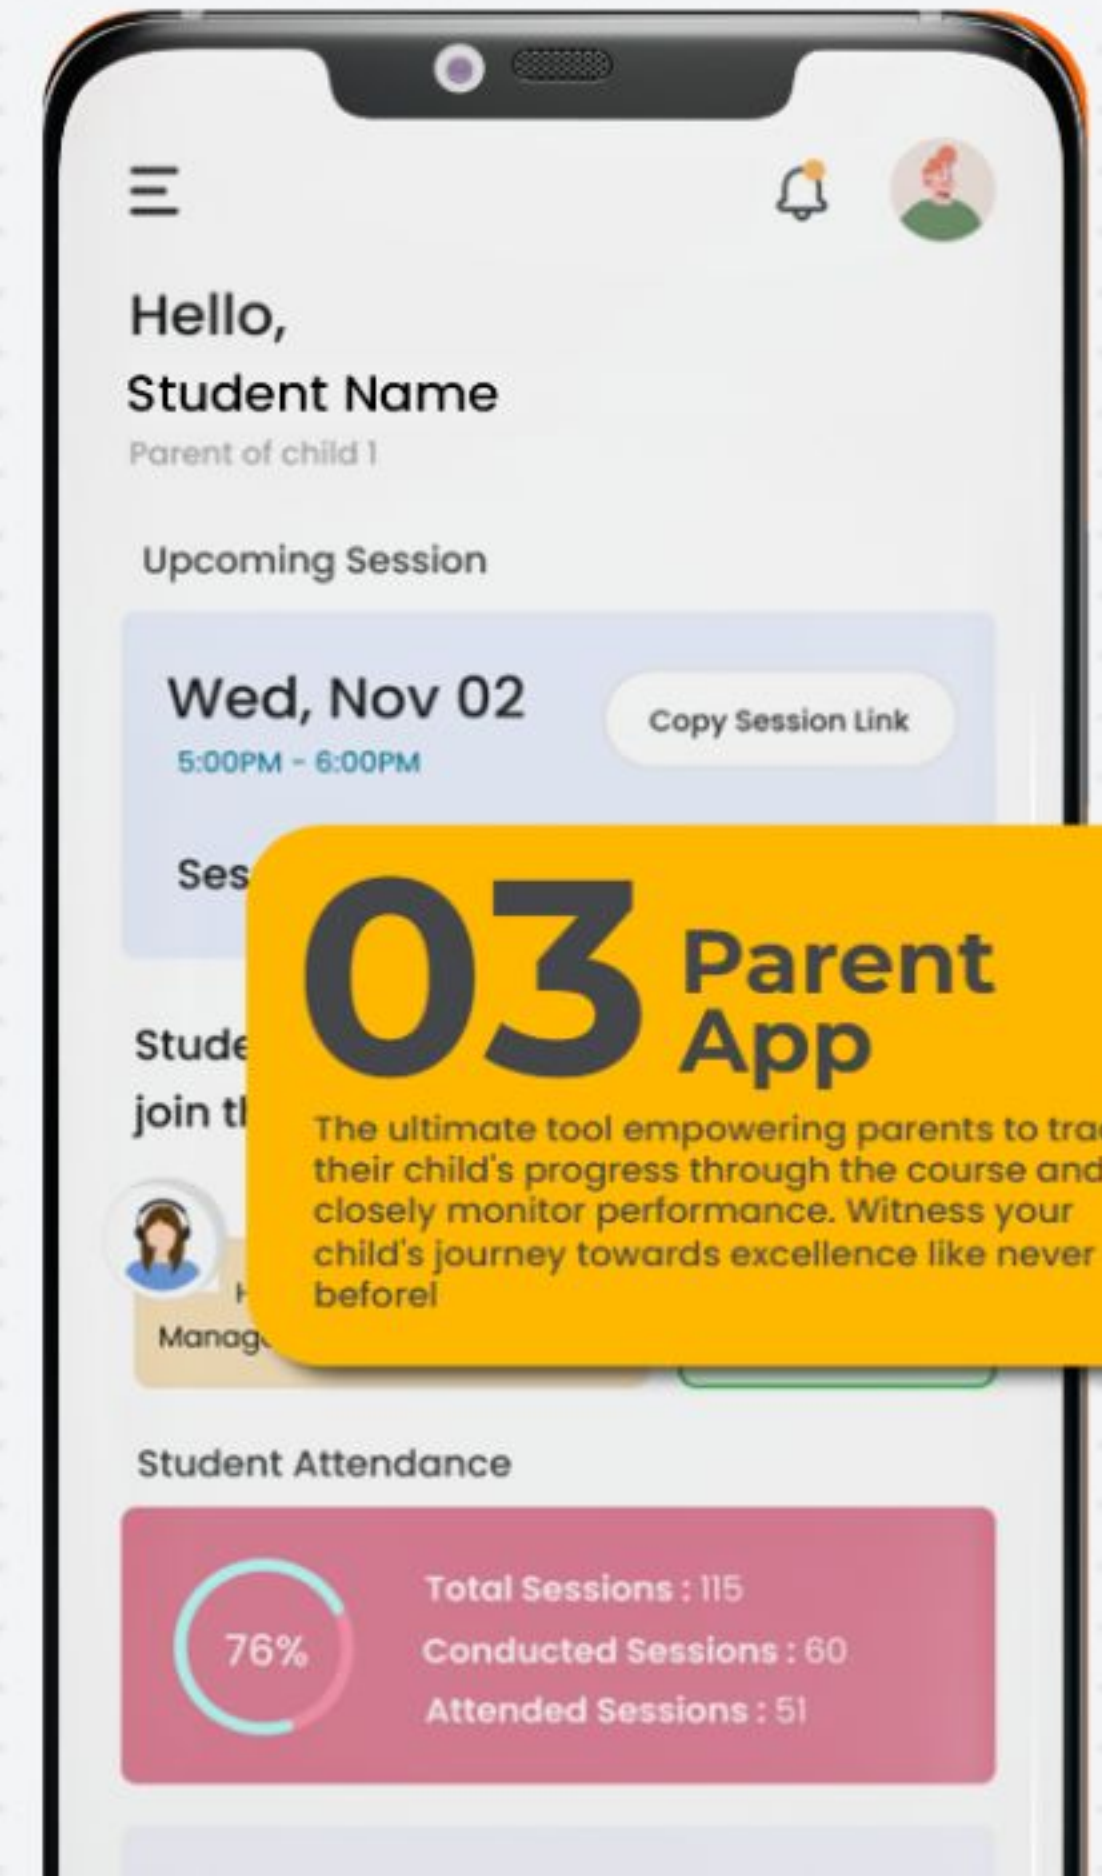

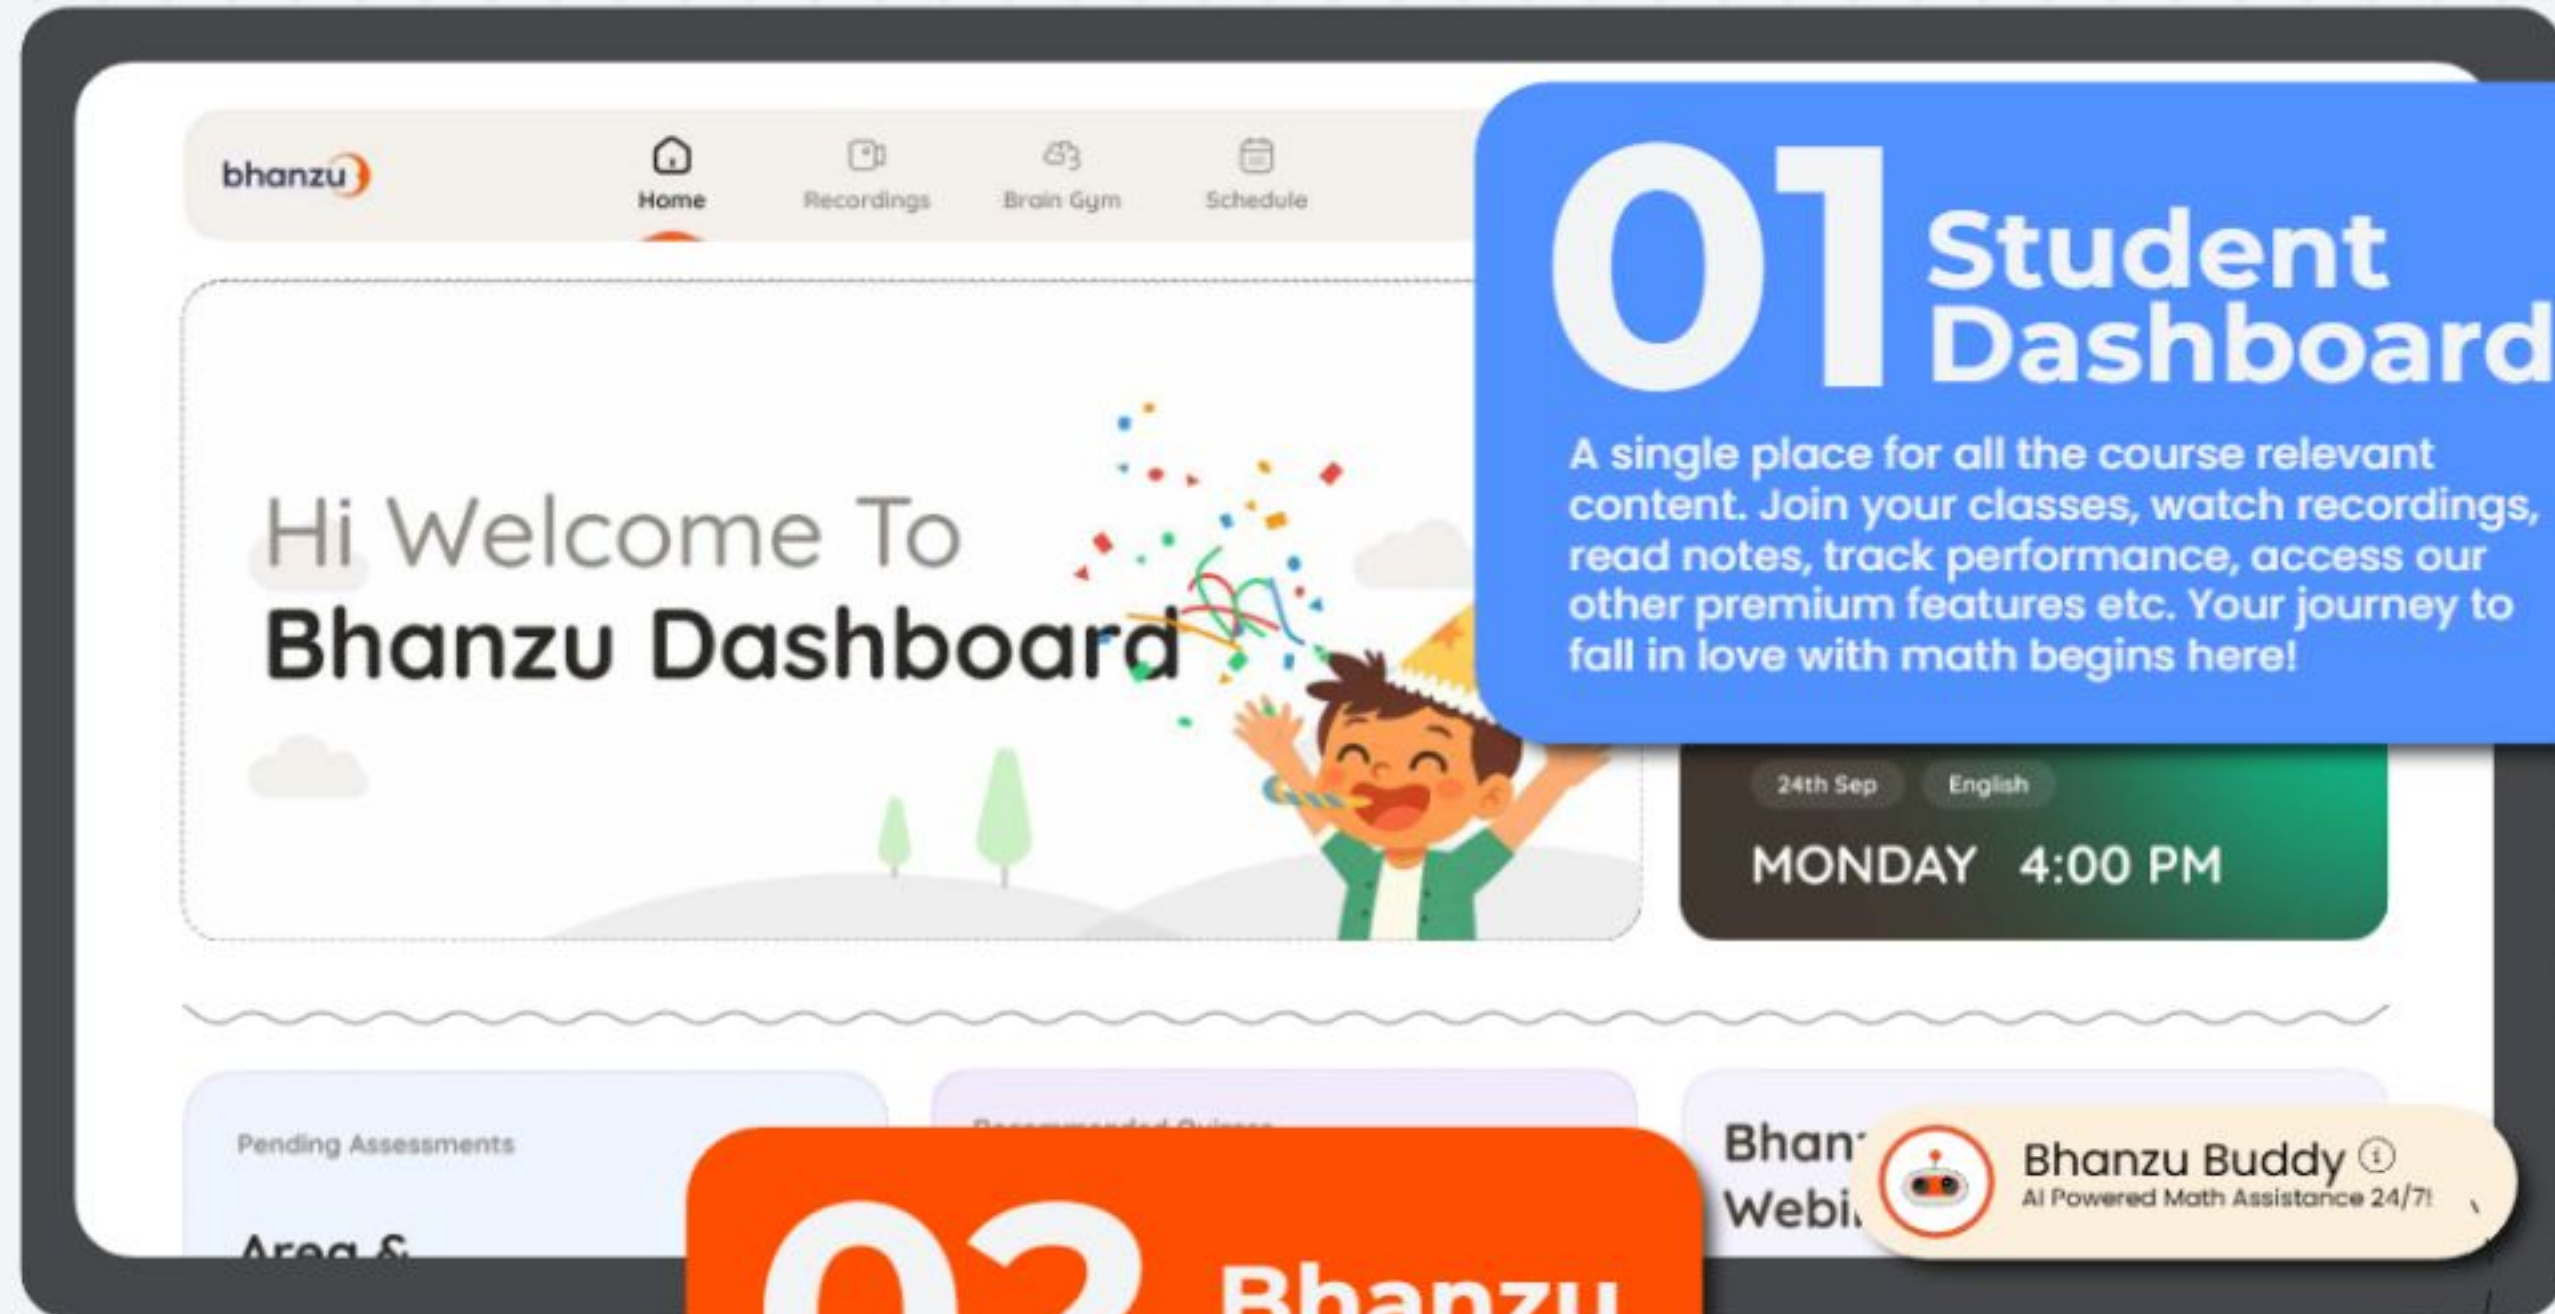

A single place for all the course relevant content. Join your classes, watch recordings, read notes, track performance, access our other premium features etc. Your journey to fall in love with math begins here!

02 Bhanzu Buddy

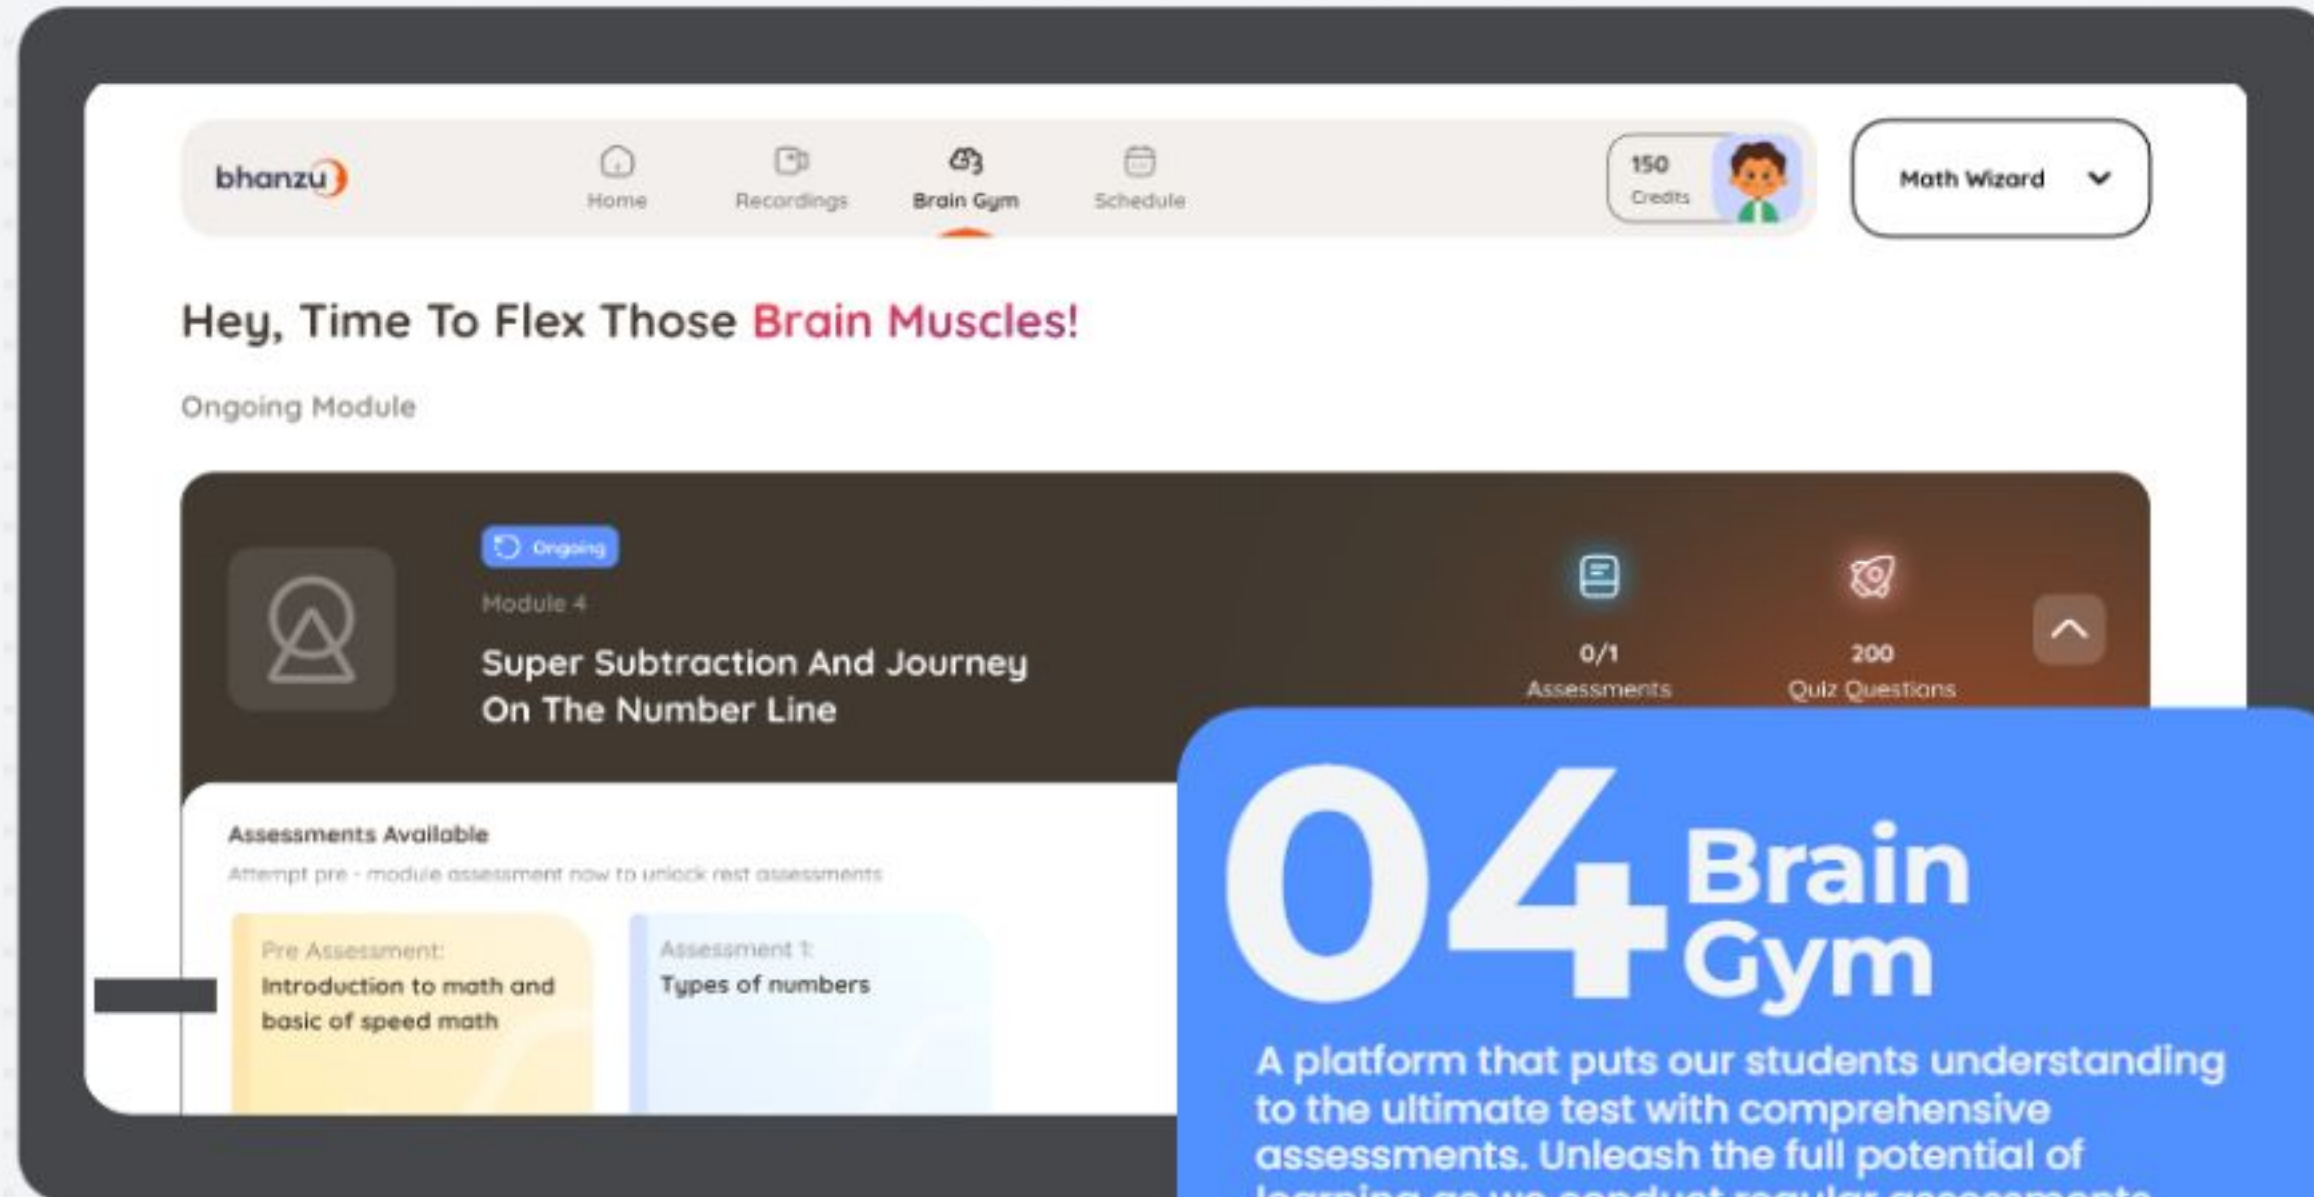

An AI powered, real time math assistant available for you 24X7! It can help you with all your Math doubts & problems. Ask away till you are satisfied!

03 Parent App

The ultimate tool empowering parents to track their child's progress through the course and closely monitor performance. Witness your child's journey towards excellence like never before!

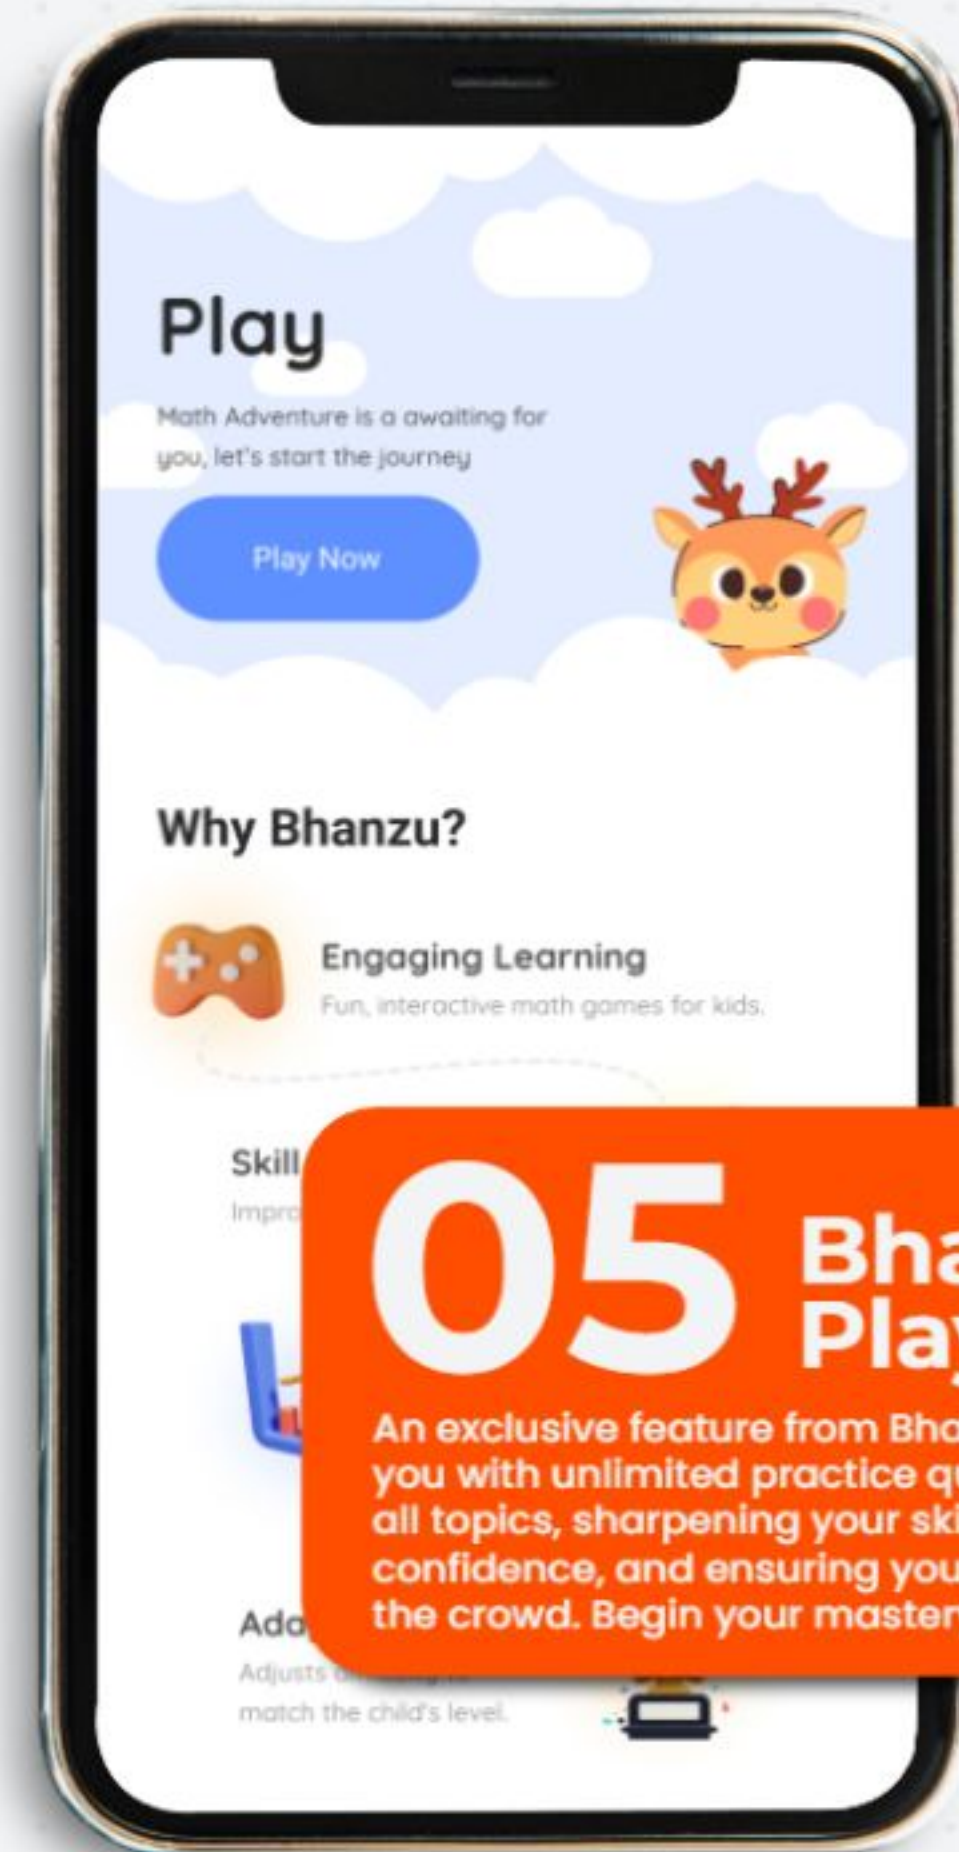

Our Learning Ecosystem

04 Brain Gym

A platform that puts our students understanding to the ultimate test with comprehensive assessments. Unleash the full potential of learning as we conduct regular assessments throughout the course. Let the timer begin!

05 Bhanzu Play

An exclusive feature from Bhanzu, empowers you with unlimited practice questions across all topics, sharpening your skills, boosting confidence, and ensuring you stand out from the crowd. Begin your mastery!

Champions at Bhanzu

Aayush
UKG, Dubai

We are really happy with Aayush's progress. He always had a love for numbers and we were searching for a perfect platform to further polish his love for numbers, and Bhanzu has been an excellent partner. Aayush has become more confident to open up and his calculation has seen tremendous improvement.

- Sheetal Kadam
(Mother Of Aayush)

Naira Yadav
Grade 1, Mumbai

Naira is a bright child and I wanted to give her more exposure in terms of Math. I came across Bhanzu and I really liked the methodology of teaching here. The trainers make Math very engaging and interesting which my daughter enjoys a lot. Thanks to Bhanzu, she is not having any troubles with Math.

- Ekta Yadav
(Mother Of Naira Yadav)

Naksh Goel
Grade 1, Delhi

Naksh has improved his Math skills considerably with Bhanzu. He has become more confident to apply Math in real-life and I am very happy with this progress. He is scoring well in school exams and likes to do speed calculation sums. Thanks to Bhanzu!

- Ruchika Gupta
(Mother Of Naksh Goel)

Manaswini
Grade 1, Singapore

My daughter always feared Math. Her school teachers would complain of her disinterest in the subject which would make us worried. Luckily I found Bhanzu and I was thoroughly impressed by their Math teaching techniques. Now my daughter loves Math and enjoys the classes too!

- Shravanthi,
(Mother Of Manaswini)
